THE CHICAGO DAILY TRIBUNE, IS PUBLISHED EVERY MORNING AND EVENING, (Sunday excepted) BY HENRY FOWLER & CO. At the Tribune Buildings, No. 53 Clark street, next door South of the Post Office.

TERMS OF SUBSCRIPTION

Chicago Daily Tribune

HENRY FOWLER & CO., PUBLISHERS. OFFICE IN THE TRIBUNE BUILDINGS, 53 CLARK STREET, NEXT DOOR SOUTH OF THE POST OFFICE. TERMS—EIGHT DOLLARS PER YEAR.

VOL. VII.—OLD SERIES. CHICAGO, ILLINOIS TUESDAY MORNING, MAY 24 1853. NEW SERIES.—VOL. I—NO. 273

THE CHICAGO TRI-WEEKLY TRIBUNE is published Tuesday's, Thursday's and Saturday's, in time for the earliest Morning mails. It is of the same size with the large Morning Daily and contains all the reading matter of two days. This is an excellent edition for residents in the country. It will be furnished to mail subscribers at the low price of $4.00 a year in advance.

The CHICAGO WEEKLY TRIBUNE contains all the valuable reading matter of the Daily, comprising the latest intelligence by Telegraph and the Mails, Market Reports, Literary Reviews, one choice Story each week, and excellent Home articles, and furnishes more reading than the large sheet of the New York Weekly Tribune. It is published every Friday at the low price of $2.00 a year in advance. Ten copies to one address, $15.00. TWENTY COPIES TO ONE ADDRESS $25.00.

CHICAGO DAILY TRIBUNE

The Publishers of THE TRIBUNE deem it not inappropriate at this time to make a brief statement of their purpose and plan.

1. The first essential of a good Daily consists in its being a Newspaper. News—accurate, reliable, varied and fresh, is indispensable. The furnishing its Readers with the latest and best information of each of the manifold changes, incidents and developments, occurring throughout the world as are of special interest to the people of Chicago and the West, will be the leading characteristic of THE TRIBUNE.

2. The candid and thorough discussion of those principles which underlie all facts, is also an essential of a good public journal. In this department THE TRIBUNE will strive to uphold the Truth and the Right. Established on an independent foundation, it will seek to maintain its position by the fair expression of considerate, yet decided opinions. It will defend whatever it regards as lawful, just and sound, and discountenance all that is false, factitious and fraudulent.

3. For the efficient carrying out of its design, THE TRIBUNE is arranged in eight Departments, to each of which a competent and responsible person is wholly devoted. Of these the Commercial Department is under the charge of T. A. STEWART, Esq., one of the founders of THE TRIBUNE, whose established reputation throughout the West, as a Commercial Editor, saves the necessity of commendation. The Home Department, which is edited by a Lady, has been added lately for the sake of making THE TRIBUNE a welcome visitor to the HOME CIRCLE, as well as to the counting room and the office.

4. Arrangements are completed, for Correspondence, from New York, Washington, Philadelphia, Baltimore, Boston, Cincinnati, New Orleans, St. Louis, and the Capitals and larger towns of our own and neighboring States. Letters will be received also, during the year, from at least four regular correspondents in Great Britain, France, Italy and Germany. THE TRIBUNE'S corps of Letter Writers has been made up with care, and includes gentlemen of undoubted ability, accomplished education, and high standing in the country.

5. THE TRIBUNE will support a system of national policy that shall defend our honor abroad and maintain our credit at home. It will advocate a discriminating Protective Tariff; Harbor and River Improvements; the donation of the Public Lands to actual settlers; the solution of agitating Foreign Questions by honorable negotiation, unembarrassed by lawless encroachment; direct appeal to the PEOPLE, so far as possible, on public questions and public officers; and the leaving the South to bear the heavy burdens and heavier responsibilities of its peculiar institution, without irritating interference by the North for its removal, or aid from the national government for its extension.

Its hope of a high destiny for this Land of Freedom is founded on its Faith in Progress as the best Inspirer, in the Past as the best Teacher, in the People as the best Sovereigns, in Whig Principles as the best Policy, in Republicanism as the best System, in Christianity as the best Regenerator, and in the West as the great arena.

CARDS.

Hydropathic Retreat.
DR. J. WEBSTER has recently opened a house on the corner of Indiana and Rush sts., for the reception of patients wishing Hydropathic treatment. As the nutritious air of this is most agreeably modified by the gentle breezes from the adjacent lake, a more healthful and salubrious locality can seldom be found.
In Obstetric Practice, and in those weakened and diseased states of the system, which frequently makes life a burden to many of our most useful women, he has had unparalleled success with Water-Cure treatment.
Office hours from 8 to 10 A. M., and from 2 to 4 P. M.
J. WEBSTER, M. D.

DENTISTRY
DRS. C. H. & J. D. QUINLAN, Surgeon Dentists and Manufacturers of Carved Block Porcelain Teeth, with Artificial Gums. Teeth inserted in all the different modes from one to an entire set. Chicago, Jan. 20, 1853.

DR. WILCOX, Dentist,
AND MANUFACTURER OF
CARVED BLOCK TEETH.
No. 30, Dearborn Street, Chicago,
(Opposite the Tremont House.)

NEW AND VALUABLE DISCOVERY.
Great Improvement in Artificial Teeth.
DR. J. A. KENNICOTT, No. 96 Lake street, having purchased ALLEN'S PATENT IMPROVED METHOD OF SETTING MINERAL TEETH, takes pleasure in offering to his patrons a REAL and SUBSTANTIAL IMPROVEMENT, which only needs to be examined to be appreciated, and unqualifiedly approved. The advantages of this invention are Palatal Cleanliness and freedom from any metallic or other unpleasant taste, great strength, lightness and durability. The teeth are secured to the plate by means of a strong mineral cement, which forms a perfect union of the teeth and plate, and an EXACT IMITATION OF THE NATURAL GUMS, giving a life-like appearance that it is impossible to obtain in any other way. For references, see MEDALS and DIPLOMAS awarded to Dr. K. as premiums for the Best Dental Mechanism, also, specimens of work at his office, No. 96, corner of Lake and Dearborn streets, near the Tremont House.

SOMETHING NEW.
A VERY great and decided improvement in the science of Dentistry, at Dr. W. H. KENNICOTT'S Office, need only be seen to be properly appreciated by any one who ever wore artificial teeth. One of the great points gained in this invention, is the entire union or fusion of the plate with the teeth, so that the whole is one entire piece, smooth as a china cup and as easily cleaned, there being no space anywhere for food to find a lodgment, consequently no offensive taste or odor will obtain from their use.
Wm. H. Kennicott having obtained Dr. Allen's patent and a full course of instructions from Dr. Taylor, of Cincinnati, is now prepared to offer a real improvement to the public.
Office—120 Lake Street.

DENTISTRY.
DR. H. K. KELSEY, Surgeon Dentist, would render his thanks to the citizens of Chicago and vicinity, for the liberal patronage extended to him, and by close application to his profession, would solicit a continuance of the same. All operations performed in a satisfactory manner or NO PAY. Particular attention given to the insertion of Full Sets of Teeth and all persons desirous of supplying themselves with Artificial Teeth, would do well to give Dr. K. a call at 128 Lake street, over Murray's Mammoth store.

Steam Engines and Machinery.
JAMES W. COBB'S RAIL ROAD FOUNDRY, ON the WEST BANK of the NORTH BRANCH Stream and on KINZIE ST. by the Rail Road Depot.

CARD.
WE the undersigned, having tested the AMERICAN POLISH, manufactured by Elijah McLean, at Newbury, Vermont, of pure Chalcedonic Rocks, pronounce it to be superior to any that has yet been imported, and it is our opinion, if brought into general use, it will supersede the imported Polish.
E. McLEAN, Ag't, Chrystal Fountain.

DRY GOODS.

Triumph of Art.
A BEAUTIFUL achievement has just been attained in the art of manufacturing
CARPETS,
producing an entirely new effect, far surpassing that attained in the ordinary quality of Ingrain and Three Ply.
The article produced is a TAPESTRY INGRAIN of superior beauty and elegance, the peculiarity of the invention consisting in the fact that it is parti-colored in the yarn, producing a new and beautiful effect. It has been patented both in this country and Europe, and bids fair to produce a new era in the history of Carpets. Specimens may be seen at the Carpet Rooms of
FRANCIS CLARK, 168 Lake st.,
where can also be found the best assortment in this market, of all the new and beautiful styles of Carpets.

New Goods through by Railroad.
WE yesterday received the first invoice of Goods for the Spring Trade, and we take this method of informing our customers and the trade generally, that we shall, from this time forward, be receiving fresh Goods almost daily, suited to the making up trade—such as
Imported and American Broadcloths.
Cases Fancy and Black Cassimeres and Doeskins.
English Drap d'Ete and Queens Cloths.
Yellow and Brown Linens and Linen Drills.
Fancy Tweeds and Cashmeretts.
Nanzook and Drap d'Nimrod Coatings.
Fancy Sattinets and Cottonades.
Vestings—in great variety.
Tailor's Trimmings, &c. &c.
Having a buyer constantly in the Eastern markets, we are enabled to offer great inducements to dealers, in goods adapted to men's wear. FIELD, BENEDICT & CO.,

Mr. L. Lamotte is the Agent for the Tribune along the line of the Chicago and Rock Island Railroad.

For Notices of Insurance Companies and Banks, see the first and second Columns on the fourth page.

Fort Wayne and Chicago Railroad.

A meeting of the Board of Directors of this Railroad was held at Fort Wayne on Friday, on which occasion Chicago was represented by Dr. Evans, one of the Chicago Directors. The object of the meeting was, according to advertisement, to let out by contract the building of the whole length of the line. There was a large number of contractors in the town, and Fort Wayne presented a busy appearance. Many estimates had been sent in, and it was found that several contractors were prepared to take the whole length of the road. There was considerable competition, and all the sections were let, on advantageous terms to the company. In a day or two we shall be able to furnish a correct list of the whole lettings.

The prospects of the Fort Wayne and Chicago Railroad, are represented by its friends, as being increasingly prosperous and cheering. Already above a million of dollars worth of stock has been subscribed for—a sum amply sufficient, considering the cheapness of the route, for present necessities, and a fact which will at once establish the credit of the company upon a permanent foundation. From a report of the President and Chief Engineer, we learn that the whole route has been surveyed, and that the district of country through which the road will pass is peculiarly favorable for a first class railroad. From Chicago to Crestline, a distance of 184 miles, the highest gradient does not exceed 26 feet per mile. The total ascent going west is 846 feet, going east 633 feet. The aggregate amount of deflection 247½ degrees, of which 88 is caused by passing round the southern bend of Lake Michigan, and the balance is occasioned chiefly by the entrance of streets into towns.—A look at the map at once shows that from the bend of the lake through the whole length, from town to town, the railroad is a perfect air line. There will be but a small amount of heavy work, and on the whole the prospects are promising for the construction of a cheap road.

The road will run from Chicago round the southern bend of the lake, through Valparaiso, County seat of Porter county; Plymouth, County seat of Marshall county; Warsaw, County seat of Kosciusko county; Columbia, County seat of Whiteley county, to Fort Wayne. The whole of these are thriving towns, and they are located in as fine a portion of country as any in Indiana; and as hitherto this portion of Indiana has been deprived of the advantages of railroad communication, while it will greatly add to the profits of the company, there can be no doubt that it will receive an immense advantage by the construction of the railroad.

The continuations of the road will be the Ohio and Indiana, the Pennsylvania and Ohio, and the Pennsylvania Central, which will form a direct route from Chicago to Philadelphia; and by way of the Central railroad, through Harrisburgh, to New York city, which will be the shortest and most direct route from Chicago to Pittsburgh, Philadelphia, New York and Boston.

Besides the direct trafic, the road will doubtless receive great assistance from the concentration of so many important roads at Fort Wayne, which comprises the Wabash Valley railroad from Lafayette on the southwest, and from Toledo on the northeast; the road from Cleveland by the way of Fremont, the Cincinnati road by way of Richmond, and the Crawfordville, Frankfort and Fort Wayne railroad, all of which it is confidently expected will be finished by the opening of the Chicago and Fort Wayne road.

We learn that the whole of the contracts were let to be finished within eighteen months from the present time. When this road is completed we shall then have three independent routes to the east, but by that time we have no doubt there will be abundant trafic for all.

For St. Louis papers of last Saturday, we are indebted to Capt. Price of the Garden City, and to Mr. Wm. Baker of the Chicago and Rock Island Railroad, and Mr. S. Holliday of the Express.

The Norwalk Bridge.

HARTFORD, Thursday, May 19.

In the Senate, to-day a resolution was adopted authorizing the Committee on the Norwalk disaster to summon before them the President and Superintendent of the Railroad, and directing them to examine the condition of the bridge at Norwalk, and to give the Superintendent of the road reasonable notice when the investigation was to take place.

Mr. Butler, of Norwalk, made a powerful speech upon the subject. He had examined the bridge with care, and described the timber as worm eaten and rotten. He dwelt at length upon the insufficiency of the Directors of the road, and thought the road greatly needed Legislative supervision.

It will probably be some time before the Committee make their report.

COMING.—The N. Y. *Herald* says: We learn from a private letter, which may be entirely relied on, that H. B. M's ship Leander was to sail on the 7th inst. for New York, having on board the Earl of Ellesmere and other members of the commission appointed to inspect and report upon the Exhibition in this city. The Earl will be accompanied by Lady Ellesmere, two daughters, and two sons.

A Company with a capital of $1,000,000 for the establishment of a line of steamships between Baltimore and Liverpool, is in course of formation in Baltimore. Their application for Charter is before the Maryland Legislature.

Mr. CORNELIUS VANDERBILT has sold his Staten Island Ferry, together with a large portion of his valuable estates and water-privileges on the Island, for $600,000. The purchaser is is Mr. MINTHORNE TOMPKINS, for himself and associates.

Vanderbilts Yatch NORTH STAR, as was announced by telegraph in yesterdays paper, has been repaired from the slight injury received on the rocks in East River, and she has sailed for Europe, as contemplated.

Oakland and Ottawa Railroad.

From the Detroit Tribune we learn that the whole line of Railroad from Pontiac to Grand Haven are under contract, and to-day N. P. Stewart, Esq., the President of the Detroit and Pontiac Road, is to start for England for the purpose of contracting for the iron for the entire work.

National Convention of Colored Men.

Some thirty prominent colored men, residing in New York City, Brooklyn, Rochester, Albany, Providence, R. I., Ohio, Pennsylvania, New Bedford, Mass., Illinois, Newark N. J., Detroit, Troy, and Connecticut, have united in appointing "a National Convention of the free people of color," to be held in this city, on the 6th day of July next. The call appears in *Frederick Douglass's Paper*, and the objects of the movement are stated to be to confer and deliberate upon their present condition, and upon principles and measures important to their welfare, progress and general improvement.

Among those who sign this call are J. W. C. Pennington and J. McCune Smith of New York, Frederick Douglass and J. P. Morris of Rochester, and J. B. Vashon of Pittsburgh.

New York, May 20th, 1853.

To the Editors of the Chicago Tribune:

The Telegraph furnishes you with all the important events as they transpire, in this Babel of the New World, and consequently leave but little for your correspondents to communicate.

We are all in confusion, tearing down and building—repairing and cleaning—all over our good city. Elegant stores, five and six stories high, costing 45 or 50 thousand dollars to build, have run up in all the cross streets in the lower part of the town. Many more are contemplated, and in the course of erection. The remaining few of the old Knickerbockers, who heretofore withstood the current of the upward tide, have at last been compelled to yield, and have gone to end their days on ground, where their father's sheep and cows used to graze and the sight of a brick house was rare if ever known. Landlords have been giving enormous prices to buy off leases from their tenants. The owner of the American Hotel, on the corner of Broadway and Barclay, paid $20,000 to get rid of a five years lease, and intends to change the Hotel into stores and offices. Fifteen thousand dollars was paid to free a house next to St. Thomas Church, Broadway, of a three years leas lease, and a new tenant has taken the same premises, at a rent of $1200 a year. A house on the 5th Avenue that was bought last fall for 20,000, sold this spring for $30,000. What are we coming to? Speculations in real estate have received a check the last few weeks, and less is done at present. Some say that we are on the eve of another '36—that there are the same portentous signs visible in the heaven as before the revulsion of that year. Others consider the present inflated prices of rent and real estate, to be the natural result of the great wealth daily flowing into our city.—That as new channels are opened from the West, they bear into the lap of the Empire City the riches of her fertile and productive territory. That the internal improvements of Illinois, Michigan and Missouri are the secret causes—that New York is growing and will continue to grow a rich and great city, without knowing the cause of her wealth and greatness.

The Capitalist, who has amassed a fortune in distant parts of the Union, retires to New York to enjoy it. Europe gives birth to, and cultivates talent, but seeks America to reap a harvest—and making New York its head quarters, draws money into the city with the strangers who are attracted by it. Jenny Lind, Parodi, Alboni, &c., took money from the pockets of our rich, but they also put a great deal into the hands of the tradespeople.

The prosperity of Chicago has had a similar effect. The rise of your property seems incredible, and we would judge it is a fairy tale, were we not witnessing similar phenomena in our midst.

We expected a large number of strangers here this summer—the Hotels are well filled now, but we shall not consider the city crowded, until people sleep in the Park, and wash in the Fountain.

The Opera closed ten days since, with a most successful representation of Don Giovanni. Alboni, Salvi, Beneventano and Rosi sang and were received with great enthusiasm. It will reopen next week, with Steffanoni, Prima Donna, and Salvi—Martini and Beneventano.

The new Opera House is no longer a thing "talked of," but a thing "settled." It is to be on the corner of Fourteenth street and Irving Place, and will be a most spacious building.

The chief amusement at present, is the Hippodrome, on Broadway opposite Madison Square. There are two performances daily, afternoon and evening. The building is oval and very large, capable of holding 8,000 spectators. On the night of its opening, it is said to have contained 9,000. The walls are of brick, with four towers at the four extremities—two of which are used for public entrances and refreshment rooms—two as entrances for the troupe. The whole is surmounted by a mammoth tent, supported by four long poles, the tent being made of alternate stripes of white and blue canvass. The seats are arranged in tiers from the wall to the ground, and divided off into three sets—those at the eastern end being $1 a seat, the southern 50 cents, the northern 25 cts. You can see as well from one part of the house as another, consequently the only advantage of paying a higher price is, that your ticket is numbered, and ensures a seat, and the place is less crowded.

It is amusing to note the character of the applause that emanates from the different sections of the house. The first, a gentle clap of white kids, an effeminate bravo-bravo, mingled with a fluttering of highly scented fans—the second sends forth livid claps from ungloved hands while the third bursts, heart and soul, with shouts of "hey! hey! go it," stamping of feet, and beating with canes—a healthy outpouring of delighted hearts, who enjoy everything as it happens. The whole effect is like a peal of thunder, scarcely audible as it commences, in the distant heavens—growing louder and louder, till it breaks forth in trumpet tongued tones. The Coup d' oeil, on entering the Hippodrome is very fine—unable to distinguish faces on the opposite side, you find yourself surrounded by a vast sea of human heads—a population of a moderate sized city. In the centre are four tastefully arranged grass plots, with fountains in the middle of each, jetting the pure Croton over illuminated crystal globes.

Several accidents have occurred to the troupe. Some time since, one of the female riders was thrown from her horse, and is said to have since died. A monkey was killed by his horse falling and rolling over him, with the poor little fellow's legs strapped to the saddle. A few weeks since a horse fell in leaping a hedge, and threw its pretty rider, but the young lady surmounted and took her place in the chase with as much enthusiasm as ever.

The Crystal Palace will not be finished before the 4th of July, if then. It presents a busy scene, with over 400 workmen engaged in roofing, glazing, putting up stairways, &c. The company ought to have made more accurate calculations than to have announced the opening for the 1st of May. Many from a distance counted on coming, and are now disappointed, as they do not wish to travel in the hot weather.

The Norwalk disaster continues to throw a gloom over our city. Many a mourner has been created by the disastrous event. The public are indignant now, but they will soon resume their usual apathy and indifference. They were aroused by the Reindeer and Henry Clay calamities, but a jury could not be found to convict the guilty parties at the trial.

A good deal of curiosity exists here to know the estimation in which the stock of the Illinois Central is held by the sober minded portion of your community. I am frequently interrogated by people here, knowing that I hear a good deal of Western affairs. Adieu. M.

Appointments.

WASHINGTON May 20th

The Diplomatic and Consular appointments will be announced on Saturday. Among them may safely be named Wise to France; to Berlin, Meade; to China, Gadsden; to Mexico, Trousdale; to Chili, Seymour, of Connecticut; to Russia, Samuel Medary; Gilmore, of Pennsylvania, Consul to Valparaiso; George Sanders, Consul to London; and James M. Tarleton, of Alabama, Consul to Acapulco. B. F. Angel wanted something better than Lahaina, but will reluctantly accept what is offered. Major Helm, of Kentucky, is sure of a paying Consulate. The Empire State will have several minor appointments instead of Dix for France.

James M. Buchanan, of Maryland, who wanted a full mission, will probably secure a Chargeship.

There is some talk of John Van Buren for France, but it is no go.

There is an extraordinary leader in the *Union* in favor of the Russian alliance. Young America and the *Republicans* are very indignant about it.

William W. Hope, editor of the Pennsylvanian, is to have a Clerkship in the General Post-Office, worth $1,800. Gideon Westcott, brother to the Ex-Senator, business editor of the *Pennsylvanian*. Colonel Forney and Postmaster-General happily have become reconciled.

Correspondence of the Daily Tribune

GREEN Co., WIS., May 18th.

MESSRS. EDITORS:—Shall I tell you of the dismal weather which still continues? 'Tis needless; you have only to cast your eye out of your window, to know it all. The hopes of a change is ever present, and when that change comes, it will bring a greater joy, to compensate for the cloudy days which are now passing.

Southern Wisconsin is well known as a beautiful farming country. The traveler by railroad does not see the most desirable portion. For many miles after leaving Milwaukee the road passes through a section not much settled, and in many places rather low, though often times in the distance may be seen fine farms, indicating greater cultivation. The road from Milwaukee to Janesville is new and somewhat rough, though it must in a short time be as pleasant as can be found. At every cutting is an abundance of coarse gravel, as good as any one could desire.

The rapidity with which this whole western country is filling up is truly astonishing. Its history will in a few years be almost a romance. Janesville, with its five thousand inhabitants, commands one of the finest situations in the Rock River Valley, and the surrounding country can support a city.

This County, next west of Janesville, is probably as good as any in the State, though no better than many others. Almost every foot of land is capable of cultivation. Water is abundant for farms, and Sugar River affords permanent water power for the Eastern portion of the County. Timber is here found in greater quantities than in some Counties nearer the Lake. This place, Decatur, has now about three hundred inhabitants, and four years since, there were not twenty-five persons here. It is the nucleus of what must, in a few years, be a thriving village, of perhaps two thousand inhabitants, or even more.

A Railroad running from Janesville to Galena and Dubuque, is to be put under contract next month. This must be of great advantage to the country through which it passes, and will invite settlers. This road connects with the road now building from Chicago to Janesville, and must be a benefit to your city;—opening to it the Mineral region and the Upper Mississippi by a route several miles nearer than the Chicago and Galena road.

The season is backward, and the wet weather delays farmers in their labors. There is everywhere an appearance of thrift, and thousands of prolific acres are waiting to receive their seed, so soon as Dame Nature favors with pleasant weather. X.

Mexican Boundary.—Great Fruit.

BALTIMORE, May 20th

New Orleans papers of Saturday last are received. The members of the Mexican Boundary Commission left New Orleans on the 12th instant for the Rio Grande.

The great suit between the heirs of General Lafayette against Madame Pontalba and others, being a claim for a large tract of land in New Orleans, has been decided by the United Sates Circuit Court in favor of the defendants.

The ship Adaline has been chartered to sail from Savannah with emigrants for Liberia early in June.

Gold in Texas.

The *Austin Gazette* gives the following strong endorsement to the most favorable reports.

A considerable excitement is prevailing throughout Western Texas, on the subject of the gold discoveries in our neighborhood; and we have had several letters, and observe notices in our exchanges, asking information on the subject. That there is gold, and in great quantities on the tributaries of the Colorado, a short distance above this city, we can no longer entertain a doubt, for some specimens shown us are of the most beautiful character. We understand, upon good authority, that one specimen has been found with twenty-four dollars worth of gold. This report we have no hesitation in crediting, as it was brought by a gentleman of undoubted veracity. The number of persons, now at the mines, is very considerable, set down by reports at from 200 to 500, most of whom are greatly encouraged by their success. Persons are flocking in to the mining districts from all parts of the country, and we shall not be surprised to hear soon of discoveries equaling in importance the golden stories of California.

The following letter is published in an extra of the Lavaca paper. We learn that it was not written for publication:

Great Excitement in Lockhart—Gold discovered in Texas.

The tranquillity of our peaceful village was greatly agitated some three weeks since, from the fact of a rumor, in relation to a recent discovery of gold about seventy miles distant in a north-west direction from Lockhart; presently on the reception of the report, many of our citizens, not only in town, but also those in the country, proceeded immediately to the designated place, for the purpose of ascertaining its accuracy, and among the number was a few upon whom our community relied with implicit confidence, because they were known among us as men of veracity, and besides, they had heretofore successfully worked in the mines of California, consequently they were esteemed fully competent to judge. But previous to the latter starting, they wisely provided themselves with implements, necessary tools for mining, and arriving at the spot, they carefully explored the whole adjoining country—and since their arrival in our town, they report they found gold on the surface, and the further they descended in their diggings, they realized the veins to become richer; and from the specimens of quartz which have been submitted to me, I have no hesitation in pronouncing them, after a rigid analization, equal in value to any I ever witnessed in California.

Various lumps of gold have been obtained and exhibited in Lockhart, valued from $50 to $175; however, the largest piece which I have examined, was worth, agreeably to the standard value of gold, $150.

THE SECOND NEW YORK ARCTIC EXPEDITION.—The departure of the brigantine "Advance," in which the search for Sir John Franklin and his company of the lost navigators is to be renewed, is near at hand. We are gratified to learn that Dr. Kane, by whom the expedition is to be commanded, is completely restored to his accustomed health, and is expected to be in the city tomorrow. Only about a week will then be required to make all needful preparations for the departure.

The vessel in which the expedition will sail now lies at the pier opposite Grinnell and Minturn's and looks as well as when fitted up for her first voyage to the Polar seas. She has been proved to be exactly adapted to the service in which she is engaged. In her rigging she has been altered from a brig to a brigantine. No other alteration of consequence has been made. Her deck is made of double thickness of plank, with felt between, and has a cork lining beneath, about seven inches in thickness. Outside she has three thicknesses of plank, and within she is fastened and timbered in the strongest manner.

Probably, no expedition has ever sailed from the United States so thoroughly fitted out for objects of scientific research, though these are to be altogether secondary to the main object of the expedition. The "Advance" will be provided with a portable observatory, which may be erected at pleasure on a highland, or on an iceberg, to aid the vision; a very complete set of magnetical instruments, sent out from England by Col. Sabine; a daguerreotype apparatus, of the most perfect construction, to preserve, for the scrutiny of those inhabiting warmer regions, the most interesting points of scenery at the extreme North; also the peculiarities of classes, manner of life, &c., of the natives.—There will be attached to the expedition an astronomer, an artist, and a naturalist. All told, it will probably not comprise more than twenty-four persons.

The Advance has five boats, two of which are willow baskets, covered with India rubber.—The latter are very light and bouyant, and are intended to be used in connection with sledges, by parties engaged in service on the ice, after the further progress of the vessel shall have become obstructed. Dogs to draw the sledges, also the services of Esquimaux, are to be procured on the coast of Greenland, on the upward passage to Baffin's Bay. The Advance is not expected to be absent more than eighteen months, but will be provisioned for three years. The efforts that have emanated from this city for the recovery of Sir John Franklin, have honored the American flag and humanity, and when the intrepid Dr. Kane shall again set forth, the heart-felt interest and best wishes of the American people will attend him.—*Journal of Com.*

THE MARBLE BUSINESS.—An article in Hunt's Merchant's Magazine, upon American Marbles says that the tract of Country lying between the Adirondac Mountains on the east, and extending from the northern part of Vermont, south, into Connecticut, contains the finest specimens of Marble in the world. The Parian marble, so long celebrated as unsurpassed in quality and variety, the writer says, is exceeded in every respect by that of New England. The value of the marble quarried there is now amounting to about $7,000,000 annually. This region is laid open to us by the Northern Railroad.

HOME DEPARTMENT.

A NORTHERN SPRING.

BY OLIVER WENDELL HOLMES.

Winter is past; the heart of Nature warms
Beneath the wrecks of unresisted storms;
Doubtful at first, suspected more than seen,
The southern slopes are fringed with tender green;
On sheltered banks, beneath the dripping eaves,
Spring's earliest nurslings spread their glowing leaves,
Bright with the hues from wider pictures won,
White, azure, golden—drift, or sky, or sun:
The snowdrop, bearing on her patient breast
The frozen trophy torn from winter's crest;
The violet, gazing on the arch of blue
Till her own iris wears its deepened hue;
The spendthrift crocus, bursting through the mould,
Naked and shivering, with his cup of gold.
Swelled with new life, the darkening elm on high
Prints her thick buds against the spotted sky;
On all her boughs the stately chesnut cleaves
The gummy shroud that wraps her embryo leaves.
The housefly, stealing from his narrow grave,
Drugged with the opiate that November gave,
Beats with faint wing against the sunny pane,
Or crawls, tenacious, o'er its lucid plain;
From shaded chinks of lichen-crusted walls,
In languid curves the gliding serpent crawls;
The bog's green harper, thawing from his sleep,
Twangs a hoarse note and tries a shortened leap;
On floating rails that face the softening noons
The still shy turtles range their dark platoons,
Or, toiling aimless o'er the mellowing fields,
Trail through the grass their tessellated shields.

At last, young April, ever frail and fair,
Wooed by her playmate with the golden hair,
Chased to the margin of receding floods
O'er the soft meadows starred with opening buds,
In tears and blushes sighs herself away,
And hides her cheek beneath the flowers of May.

Then the proud tulip lights her beacon blaze;
Her clustering curls the hyacinth displays;
O'er her tall blades the crested fleur-de-lis,
Like blue-eyed Pallas, towers erect and free;
With yellower flames the lengthened sunshine glows,
And love lays bare the passion-breathing rose;
Queen of the lake, along its reedy verge
The rival lily hastens to emerge,
Her snowy shoulders glistening as she strips,
Till morn is sultan of her parted lips.

Then bursts the song from every leafy glade,
The yielding season's bridal serenade;
Then flash the wings returning summer calls
Through the deep arches of her forest halls;
The bluebird breathing from his azure plumes
The fragrance borrowed where the myrtle blooms;
The thrush, poor wanderer, dropping meekly down,
Clad in his remnant of autumnal brown;
The oriole, drifting like a flake of fire
Rent by the whirlwind from a blazing spire;
The robin, jerking his spasmodic throat,
Repeats, *staccato*, his peremptory note;
The crackbrained bobolink courts his crazy mate,
Poised on a bulrush, tipsy with his weight;
Nay in his cage the lone canary sings,
Feels the soft air, and spreads his idle wings.

Why dream I here within these caging walls,
Deaf to her voice while blooming Nature calls;
Peering and gazing with insatiate looks
Through blinding lenses, or in wearying books?
Off, gloomy spectres of the shrivelled past!
Fly with the leaves that filled the autumn blast!
Ye imps of Science, whose relentless chains
Lock the warm tides within these living veins,
Close your dim cavern, while its captive strays
Dazzled and giddy in the morning's blaze!

Two Prize Essays on the use of Tobacco.

One an Essay on the physical and moral effects of the use of Tobacco as a luxury, by A. H. Grimshaw, A. M., M. D., and another entitled Tobacco—the effects of its use as a luxury on the physical and moral nature of man,—by Elisha Hain's, M. D., have been issued during the present year, in which all the arguments against the use of Tobacco, are adduced, and the opinions and decisions of Medical men with regard to its effects. For the thousandth time the world is assured that it is a "most violent poison," which taken in a pure state causes instant death, and absolved slowly into the system, lowers the nervous tone of it, and is productive of various diseases—(instead of warding off any—as sometimes claimed) and that the habit once acquired, produces "a physical and mental bondage, from which escape is almost impossible."

Perfectly conclusive and convincing all these arguments and facts are to lookers-on, but powerless or of little avail with those who habitually use "the weed" in any form, and why? Because it is itself a species of intemperance—the physical system, the brains, the seat of judgment being controlled by its excitements, and is not in a state to make a healthy decision respecting its use. It requires strong mental and moral courage to overcome excess of any kind, especially when the excess has come slowly, step by step. We hope the time will come when the use of Tobacco will be looked upon as suited only to some inferior organisms or to lower walks of life. But meanwhile we pity the men and women and children, shut up in families, with habitual excessive chewers and smokers and snuffers. They deserve the commiseration of the community.—Vice is contagious we know—the intemperate husband or wife drives the partner to the same excess—we have often seen it; life does not seem to be endurable otherwise, and we never wondered at such instances. So if the sacred atmosphere of the house is to be habitually contaminated by the noxious fumes of the pipe or cigar, if the curtains, the very walls and furniture, and personal habiliments, are to carry and retain the cooled, sedimentary particles, if spattered stoves, and marble hearths, and spittoons loaded with the refuse material, and other dirty *personal* (face and clothes) accompaniments, are the order of the day. Of the family house-keeping, then, we are ready to say, rather than live in such an unwholesome way—let the cleanly wife, or husband, thus mated, or their children give in to it too—love each other, perchance "through the dirt" and let it be a devoted Tobacco house. It would be avoided as the social leprous house, and might do more to cure the suicidal habit, than many homilies.

Comparing the city with the country, in regard to the use of tobacco, it seems to be resorted to, in the latter, more frequently, as if it were a stimulant, more needed there. Under the form of chewing, we have observed it is popular there, because it does not interfere with habits of labor, and it has become exceedingly disagreeable, not to say disgusting. Setting aside now, entirely, the injurious effects of such a habit upon the nervous system—so powerful by-the-by, that we have heard such slaves to it, avow themselves unable to execute any business requiring mental calculation without the accustomed *quid*,—why, we ask, should one half, no happily one-fourth of society be privileged thus to disfigure and defile themselves in this way? By what moral or christian rule are religious people of our time entitled to exemption from that law of love that, "in its effect worketh no ill to the neighbor?" It seems to be a settled point that women are so constituted, physically and intellectually, as not to need so much foreign stimulus as their life world partners—men; and they are therefore especially the sufferers from this vice, in their friends, in their husbands and brothers, and lovers, perhaps—though these last are frequently affected with a temporary cure, which lasts during the honey moon—and we have sometimes thought that if neat women *could* so demean themselves as to take to snuffing, they would thus administer the surest curative of the evil,—or if not so, there would at least be added to their domestic stock, one new bond of sympathy. Sitting together around the home fire, they could snuff and chew and smoke,—intermingle domestic and family endearments without fear of comment or rebuke.

AN AGREEABLE SLEEPING CUP.—Take a large teacup, and put in it some salt, considerable pepper, two or three tea-spoons full of cream, a piece of butter of the size of a pea, and then fill the cup with boiling water, being sure that it does boil—break in a cracker, and persons of simple tastes, invalids, and indeed the discerning generally, will find in using it, that it is a real, tho' small addition to the comforts of life.

"The simplest faith be it only deep and trustful—the very smallest idea of a mission in life assigned by God—be it only lovingly and clearly seen—lifteth the poor out of the dust and to them that have no might, increaseth strength: It puts a divine fire into the dullest soul—turns the peasant into the apostle, and the apostle's meanest follower into a martyr."

LOCAL MATTERS

The Mail for New York now leaves this city at six in the morning by the Lightning Express Train of the Southern Road, and reaches New York on the evening of the next day. It closes here at nine o'clock on the preceding evening. It arrives from New York during the latter part of the afternoon; so that correspondents have ample time to reply by return mail. All this is very pleasant.

Professor Agassis, the distinguished naturalist, passed through Chicago yesterday, on his return to Boston from New Orleans.

For the Tribune.

CHICAGO, May 21st, 1853.

MESSRS EDITORS:—In a former communication, I proposed to notice the southerly current in Chicago Harbor, which is known by all sailors to exist. It is no doubt produced by the large bodies of water northerly and north-easterly, and the large tract of land southerly and westerly from Chicago. The cold atmosphere about the Lake, and a warmer from the Land, Hence our storms are long and tedious from the northerly direction, and short and less frequent from the south and west. This gives a rotary motion about Chicago Harbor, and around the head of the Lake.

The location of the Harbor Piers is south of east. The result is, that in north and north-east storm, as the Piers resist the waves, the water flows back to land along the south pier, and makes a partial beach to near Lake street, at which point the waves are driven to the shore with such fury they carry it away. This makes the necessity for protection south of Lake street. My plan to improve our Harbor is a remedy for this injury. Put out five or six solid Piers, say 100 to 160 feet in width, as far as the South Pier, leaving about the same width of open Harbor slips for vessels to enter,—as the winds from the surface drives the water into these slips. The under current out is fully equal to the upper current in. This will carry out to sea again most of the sand, keep the Harbor open, and will it not effectually stop all washing away the shore and form a fine beach in front of the City's public grounds. I have no hesitation in saying it will, to a great extent.

All the protection the city wants is the proper improvement of our harbor—and make the improvement as it should be, our Harbor is ample for all time to come. Two hundred and seventy acres of the lake can be made useful—vessels can come in and depart with almost any wind. Allow the Illinois Central Railroad to plant that wall in front of Chicago harbor within a short distance of the end of the pier—a vessel missing the pier in a storm must be driven upon the wall and this southerly current, swifter than a race horse, sweeps vessel and crew to destruction.

Who can tell the consequences? If they make that wall, only one improvement is left to be made to our harbor. It is to widen the present harbor. How long will it be before our growing business will demand South or North Water streets, or both of them to be excavated? What will be the best to Chicago? The harbor must be ample to give value to real estate. Without our harbor why is our plat more valuable than Waukegan or any other point of land of the same size. Our harbor is our wealth. It can be made the best on the whole lakes. The railroad can be amply accommodated, and our city become what that great Statesman, Dewitt Clinton, prophecied in 1812—the greatest city upon the inland seas, if not the greatest inland city in the United States.

I have other suggestions to make in relation to this subject, which to my mind are of vital importance to the city and the whole northwest

CHARLES WALKER.

Grahsm,s Magazine is for sale by Danenhower.

LARGE AND SMALL.—The fat woman and the dwarf have arrived in town, and will be on exhibition this afternoon, at No. 11 Clark street.

THE PHILHARMONIC.—This Musical Society gives a concert this evening.

MAGAZINES.—Messrs. McMahon & Co., have received the June number of Grahams Magazine and Godey's Lady Book, both excelent in their way, Godey has a colored fashion plate for the benefit of the Ladies.

From Oregon.

Correspondence of the St. Louis Republican.

JENNYOPOLIS, Benton County, O. T.
March 22, 1853.

Hard winter—High prices—Laziness—Climate bad for the lungs—Wages—Gold mines—Pacific Railroad.

Our winter is over, and all nature is in full blow of spring. This has been—so it is said—the hardest winter that has ever been known in Oregon. Our winter commenced October 1st with rain, until December 10th, when snow commenced to fall, and gave us, on the average, twelve inches all over Oregon, and remained to December 26th, giving us sixteen days of very cold weather, during which time birds, crows and chickens fell from their roosts froze to death and all emigrant stock died, from cold and want of food. It is supposed, by close calculators, that over ten thousand head of stock died in Oregon from the severity of the winter. Oregonians never cut hay or save fodder for their stock, consequently there was no such to buy. Oats were up to $5 per bushel, and wheat to $8. The emigrants of 1852 are the sufferers. The loss of stock and the high price of provision makes it very hard upon the emigrants, who are now reduced to the very lowest degree of poverty; and, as I said heretofore, that provisions would be very high in Oregon, has been more than realised already.

Just imagine that you of St. Louis had to pay the following prices—how you would *growl*: Flour, $50; pork, $75 per bbl; bacon, 62½c per pound; shorts, 15c per lb; potatoes, $5 per bushel; beef 25 to 30c; butter, $1; cheese 75 cents per pound; eggs, $1 per doz.; mackerel, $30 per bbl; lard, 62½c.; oats, $5; wheat, $8, &c., &c.—These were the current prices during December, January and February; all, however, have come down, except beef, and it will be very high all summer, from the want of beef cattle in Oregon. You may ask, can these prices be sustained? I can answer, always! unless there is more farming done in Oregon than there is at present. All seem to partake of that fatal disease, as soon as they get to Oregon, *laziness*. So, gentlemen, *bring on your Pacific Railroad;* unless you do we will die for something to eat, before our farmers get in the notion of raising a surplus for home consumption. Now, beef cattle are worth and sell for 20c, on hoof; work oxen $200 per yoke; milch cows for $125, quick.—Our wheat crop is very light, from appearance; the field mice and wild geese have eaten one-half that is sowed; the estimate is a half crop for this year. Now flour sells at $25 per bbl.; it is coming in fast from the States, and it is presumed it will be yet lower before harvest.

The health of Oregon during the winter has been bad from the various diseases of the lungs. All diseases seem to concentrate upon the lungs this winter, and many persons have died. This is not the country for invalids to come to to get well of lung diseases. The climate is too wet and damp during the fall, winter and spring.

The gold mines of Umpqua, Rogue river and Wyraks, in South Oregon, are yielding well. Provisions, however, are high and scarce there.

A mechanic's wages in Oregon, on the average is $4 per day; day labor, $2 per day; many, however, cannot get employment, and are offering to work for less.

The emigration this year is expected to be large, and provisions will run up high again this fall and winter. If so, must we suffer this way long? It is to be hoped not. California and Oregon prices have always ranged high since 1848. Then why not come ahead with the Pacific Railroad, and let your Western farmers and traders have the benefit of this market? Now all our supplies come from Boston and New York, and have to go through the hands of a dozen speculators before reaching this coast. So it is with merchandise, and all domestic manufactured articles we get. We wait with great anxiety the result of this Congress for the Pacific Railroad. I am, gentleman, yours, &c.

R. I.

ENGLISH RAILWAYS.—From an article in Hunt's Magazine, we learn that the first approach to the railroad invention was between 1602 and 1649, when logs of wood were laid along the coal mines, on which wagons were run. In 1738, cast iron rails were substituted for wooden ones. The first locomotive steam engine was built by Mr. Trevithick, in 1804, on the railroad of Marthe Tydyil, in South Wales, which drew carriages loaded with ten tons of iron, at the rate of five miles an hour. The full usefulness of the locomotive was prevented for many years by the fallacy, that smooth wheels could not be made to carry heavy loads over smooth rails. Invention exhausted its powers in its endeavors to find a remedy, when it was accidentally discovered that *the difficulty was purely imaginative*. On the 25th of July, 1814, the fact of this was conclusively proven by an engine constructed under the superintendence of George Stephenson, moving up a slight ascent, and drawing after it eight loaded carriages, weighing twenty tons. The first public railroad was the Stockton and Darlington, incorporated in 1821, and opened in 1825. At first, it was not expected that passengers would travel on the road, but in a short time the number amounted to six hundred a week, where there had been a coach traffic of fourteen or fifteen persons weekly. At first, the railroad was exceedingly unpopular, and every species of invective was arrayed against it.

THE DARIEN SHIP CANAL.—The correspondent of the Journal of Commerce at Washington, writes that—

"The surveys of the Darien route for the proposed Ship Canal, as made by Messrs. Gisborne & Forde, engineers of the company, may be seen at the State Department. That work is certainly to be immediately commenced and carried through. The estimated expense of the work is only sixty millions of dollars.

"The enterprise is under the management chiefly of Sir Charles Fox, of the house of Fox, Henderson & Co., of London. The same house has taken the contract for the great railway in Canada, and has offered to take the contract for the road from St. Louis to the Southwest corner of Missouri—310 miles.

The Darien Ship Canal is a work to be executed, before we shall have done talking and regulating and disputing about the Nicaragua and Tehuantepec transits, and the railroads across the continent, through our own territory.

"The Darien Ship Canal is to be 40 miles only in length, *i. e.* from Port Escove to the port San Miguel. It will be 160 feet in width, and 30 in depth. This route, now surveyed and selected, was discovered only so recently as in 1851, by Dr. Cullen; and strange to say, this is to be completed before the Tehuantepec transit, so long explored and brought to the notice of the world by the great Humboldt, and surveyed too, in 1851, by Capt. Bernard.

"The British Government has given their approbation and countenance to this grand enterprise. The company have a most favorable contract with New Grenada, and this is further secured by a treaty between New Grenada and England. This route is safe even from American filibustering, while at the same time the Clayton Bulwer treaty secures to the United States all its advantages.

CRICKET.—The Milwaukee Cricket Club meet for practice at their grounds on Spring-st. Hill *this* afternoon, at 2 o'clock. A full muster of the Members is requested, as a challenge may be shortly expected from Chicago.—[*Sentinel.*

NO FAMILY SHOULD BE WITHOUT THEM.

We speak of M'Lane's Liver Pills, which have become an indispensable Family Medicine. The frightful symptoms which arise from a diseased Liver manifest themselves, more or less, in every family; dyspepsia, sick headache, obstruction of the menses, ague and fever, pains in the side, with dry, hacking cough, are all the results of hepatic derangement—and for these, Dr. M'Lane's Pills are a sovereign remedy. They have never been known to fail, and they should be kept at all times by families.

DIRECTIONS.—Take two or three going to bed, every second or third night. If they do not purge two or three times by next morning, take one or two more. A slight breakfast should invariably follow their use.

The Liver Pill may also be used where purging is simply necessary. As an anti-bilious purgative they are inferior to none. And in doses of two or three, they give astonishing relief to sick headache; also in slight derangements of the stomach.

J. H. REED & CO. take pleasure in announcing their Fountain open for the season. my17

THE Chicago Philharmonic Society,
RESPECTFULLY announce a CONCERT, to be given at the TREMONT HALL,
ON TUESDAY EVENING, MAY 24th, 1853.
PROGRAMME.
PART 1st.
1.—Chorus—"Now elevate the Sign of Judah"......Hayden.
2.— Do. —"Come, Gentle Spring"......Do.
3.—Duet—"What are the Wild Waves Saying"......Glover.
4.—Chorus—"Let us with a Joyful Wind"......Mozart.
5.—Song—The Erl King......Schubert.
6.—Piano Forte—Fantasia, If I were a Bird......Henselt.
7.—Recitative and Chorus—"Now the Work of Man's Redemption"......Hayden.
PART 2d.
1.—Chorus—"Glory be to God on High"......Mozart.
2.—Duet—"Music at Nightfall"......Nelson.
3.—Chorus à Quartette—"Night's Shade no longer"......Marliani.
4.—Quartette—"Love is the Cue"......Baker.
5.—Ballad—Oh! would I were a Boy again......Romer.
6.—Piano Forte—Romance from "Matilda"......Wallace.
7.—Song—From the Opera Der Waffenschmidt.
8.—Grand Hallalujah Chorus......Handel.
Concert to commence at 8 o'clock. Doors open at 7¼ o'clock.

Shingle Machine.
THE RIGHTS FOR A PATENT SHINGLE MACHINE, for the States of Wisconsin and Illinois, are now offered for sale, if immediate application be made. If not sold, the proprietor will form a Company for manufacturing Shingles on a large scale. The Machine possesses the following merits:
1st. It SPLITS and SAWS Shingles from the raw bolt at the rate of 25,000 a day, better and handsomer than can be made by hand.
2d. It requires but one horse power to drive it, and one man and one boy to tend it.
3d. It works pine, white oak, black walnut, cypress, poplar, &c., better than can be done by hand, without steaming or other preparatory process.
4th. The Machine can be adjusted in a minute, so as to make Shingles of any thickness at the butt and tip; or Barrel Heading, if desired.
5th. The Shingles made by this Machine are worth 15 per cent. more than any others.
The Public will please notice that this Machine *Splits* and *Saws* Shingles, (not cuts or shaves); and is upon a principle entirely different from any hitherto known.
For further information and terms, application must be immediately made to J. B. F. RUSSELL & CO.
Chicago, May 24, 1853. Rock Island House, Chicago.

PACIFIC RAILWAY—BUSTED UP!
GREAT EXCITEMENT was manifested one day last week among the men on 'Change, by hearing that the Pacific Railway project was being done away with. No one could believe the story, sir!—there was *something in the wind*, sure—enquiries were made—conjectures were rife—business suspended, and a general stir was evidently *afloat*, when lo! and behold! it was ascertained that all the muss was *a blow*, and that DIX was only moving his CHEAP CLOTHING AND FURNISHING STORE to No. 1 Clark Street, (corner of South Water,) where he is clothing the naked at reduced prices, as usual. my24-6t

F. BROWN'S ESSENCE OF JAMAICA GINGER.—This Essence is a preparation of unusual excellence. In ordinary diarrhœa, incipient cholera, in short, in all cases of prostration of the digestive functions, it is of inestimable value. During the prevalence of epidemic cholera and of summer complaints of children, it is peculiarly efficacious. No family, individual, or traveller, should be without it, as it enables the system to resist the influence of incipient diseases which lurk in a changing climate.
CAUTION.—Be sure to get the genuine essence, which is prepared only by F. Brown, at his Drug and Chemical Store, north east corner of Fifth and Chestnut streets, Philadelphia, and for sale by all the respectable apothecaries in the United States, and in Chicago by KEEN, BROTHER & CO., and BRINCKERHOFF & FENTON.

PURE MILK.
THE late Report of the City Physician, recommends that the enterprise of introducing Pure Milk from the country should be encouraged. We are of the same opinion, decidedly. And the way to do it is, for all who value the health of their children, or who dislike water and coffee flavored with the aroma of the distillery, to procure their Milk from the proprietors of the Original Country Milk Depot.
Our arrangements are complete for receiving milk from the country twice a day, (Sundays not excepted,) and delivering it to families in all parts of the city.
Orders left at the principal Depot, No. 5 North Dearborn st., at 105 Randolph st., at Garnsey & Tickner's, cor. Clark and Adams sts., or at Parkinson's grocery, S. Clark st., will receive prompt attention.
Cream for sale. SHEPHERD & WEBSTER. my21-1wd

SPRING AND SUMMER CAMPAIGN OF 1853.
THE VULCAN COOK STOVE LEADS THE COLUMN.
450 of those splendid Cook Stoves received to day at 193 Lake st., the only place where this Stove can be had in Chicago. Our arrangements for this season are such that every family in the Western country that has not already secured one of these stoves, can be supplied.
The Vulcan received the Diploma at the State Mechanics' Fair, and was greatly admired by the thousands who visited the Hall.
This Stove has taken the Premium wherever it has been introduced, and it is destined to supplant everything in the shape of a Cook Stove in the western country, and will be used by a free and happy people all over the American Continent, and adjacent Islands; *knowing no North, no South, no East, no West*, but the whole country, and nothing short of the country. For sale at Whole sale and Retail, by WM. KENNEDY & SONS, my21 193 Lake st., sole Agents for Chicago.

NEW YORK MARBLED IRON WORKS.
Office and Sales Room, No 413 Broadway
Opposite New Haven R. R. Depot.
MANUFACTORY COR. 6TH AVENUE AND 27TH ST.
Near the Crystal Palace, N. Y.
THE original and most extensive manufacturers of marbleized Cast Iron Mantles, Table Tops, Columns, Pilasters, Clock Cases, Counters, &c., &c. Also, all kinds of Castings for Buildings, such as Window Lintels, Sills, Door-ways, Columns, Entablatures, &c., &c.
The above Company, having just completed a new and most extensive Foundry and Manufactory, beg leave to call the attention of Architects, Builders and the public generally, to their assortment of Marbleized Iron Mantles, and other works which they are now producing on an enlarged scale—the beauty and designs of which, and their exquisite finish, has never been equalled, and cannot be exceeded.
The exact imitations of the usual varieties of Marble, such as Egyptian, Sienna, Brocatello, Verd Antique, Agate, Prince Albert, Jasper, Pyrenese, Light Spar, White Statuary, &c. &c., have elicited the unqualified commendation of connoisseurs in marble, and fully established their popularity with the public.
Some of the advantages of this discovery consist in its capability of withstanding a high degree of heat, of resisting oils and acids, which stain and deface marble, and their cheapness, (being about one-third the cost,) in comparison with all other kinds of Mantles; also of being packed and sent with safety to all parts of the country.
The Marbling Department is under the direction of Mr. E. Deming, who first introduced this invaluable discovery to the public, and demonstrated its practical utility and applications to metals and other substances.
Circulars, with plates, exhibiting the varieties of pattern, will be furnished when desired.
Address orders and communications to my19 P.T. CHARLES CROSBY, Secretary.

BOUGHT CHEAP! AND WILL BE SOLD CHEAP, 86 Lake st.,
STANLEY & HUTCHINS, directly opposite the Tremont House.

We would remind our friends, and the public, that we are ready to do all kinds of JOB PRINTING at a short notice. Our material is entirely new, and embraces the best styles of type.

Orders left at the Counting Room, on the ground floor, next door to the Post Office, will be promptly attended to.

The *Tribune* will regularly publish all Common Council Proceedings, as prepared by the City Clerk, together with such abstracts of the City Advertisements and all Official Notices as shall render it equally satisfactory to the Public with the Official Paper, as respects all the Ordinances, Notices, Decrees, and Doings of the City Government.

For Corporation Notices see eighth column, third page.

COMMERCIAL.

CHICAGO MARKET.

OFFICE OF THE CHICAGO DAILY TRIBUNE, Monday Evening, May 23—[7 P. M.]

Receipts of Produce by canal since our last are fair, amounting to 28,873 bu of Corn, 3236 do Wheat, 1970 do Oats, and 1613 do Barley,—making the total receipts of 35,691 bu. By railroad, there is no change,—receipts being very light.

The Produce market, to-day, has been animated, and sales show an advance on both Corn and Oats, and more buoyancy for Wheat. The Corn, coming forward from the river, appears to be in prime shipping order, with very few exceptions, and the care manifested in selecting and shipping cannot fail to give it the best reputation at Buffalo and N. Y.—Holders are confident that the market has not yet reached its maximum, and are by no means anxious to close off at present rates. Oats are affected favorably by the advancing tendency of the Eastern market, and the large demand for local consumption West of Buffalo. In Provisions there is no change, excepting Butter, which is again lower, under large supplies.

We note sales and nominal rates as follows:

WHEAT.—Sale of 125 bu good spring, at the depot, at 73@76c, for milling; 255 bu ordinary spring, for milling, at 68c; 150 do choice mixed at 80c; 50 do do mixed, in sacks, at 80c, and 122 do do at same figure,—all for mills. Also, 2500 bu fair spring, in store, along shore, at 72c; 800 do good winter, in store, along shore, at 85c, and 5500 bu spring, in store, to go to Oswego, on private terms.

CORN.—Sales, on Saturday evening not heretofore reported, of 5000 bu, from canal, afloat, at 47½c; to-day, 1400 bu, choice, afloat, at 48c; 2700 bu, from river, afloat, at 48c; 4300 do from do, afloat, at same figure; 2800 bu choice, from river, afloat, at 48c, and 36,000 do do do at 48½c, free on board.

OATS.—Sales of 2000 bu, afloat, at 38c; 1500 bu, afloat, at same figure; 2500 do do do, and 10,000 bu, to be delivered on board, during the month, at 38c. Also, sales at the depot of 250 bu, in lots, to the local trade, at 40c ℔ bu.

BARLEY.—There is considerable from the river on the market, and sales are made at a reduction. Prime lots in small quantities at 50c ℔ bu.

RYE.—Nominally 60@65c ℔ bu of 56 lbs.

SEEDS.—We hear of no inquiry for Timothy or Clover, and rates are nominally $1.87@4.75 ℔ bu, respectively. For Flax there is an active demand, both for city mill and export, at 90c@$1 ℔ bu.

MESS PORK.—There is no change in the market. Considerable amounts are closed off, in small lots, to the local trade, railroads and lumber country, at $15@16 ℔ bbl.

CUT MEATS.—Dealers are closing off Hams in small lots, at 8½@9½c for common country and good city trimmed and sugar cured and 10c for fancy city sugar cured. Shoulders in very little demand. Sales, in a small way, at 7@7½c.

BUTTER.—Sale of 600 lbs good fresh roll, in bbls, at 16c; 200 do do at 15, and other small lots at 13@15c. Dealers buy very sparingly.

EGGS.—Sale of 600 dozen, in bbls, at 9c, and small sales at 10c.

POTATOES.—The supply is larger than the demand, and sales are slow at 25@35c in small lots. No large amount could be closed off, even at the lowest of these figures.

CHARTERS.—The schr Suffolk goes to Waukegan, to load with Wheat, at 5½c; the schr Robt Emmett loads here with Corn, at 4½c; the brig Roscius takes Wheat to Oswego at 9c; the propeller Pocahontas takes 3000 bbls flour from G. River at 25c ℔ bbl; the prop. Bucephalus goes to Milwaukee and loads with flour, at 25c; the prop. Granite State takes 5000 bu corn to Ogdensburg on account of owners, 150 bales of hemp to Montreal at $0.50 ℔ ton, and 40 tons pig iron, at 40c. The propeller St Joseph takes 1900 live hogs to Buffalo, at 40c ℔ ton.

CHICAGO MARKET.

OFFICE OF THE CHICAGO DAILY TRIBUNE, Monday Evening, May 23—7 P. M.

Receipts of Produce by canal, since our last, are fair, amounting to 28,872 bu of Corn, 3036 do Wheat, 1970 do Oats, and 2441 do Barley,—making the total receipts of 36,881 bu. By railroad, there is no change,—receipts being very light.

The Produce market, to-day, has been animated, and sales show an advance on both Corn and Oats, and more buoyancy for Wheat. The Corn, coming forward from the river, appears to be in prime shipping order, with very few exceptions, and the care manifested in selecting and shipping cannot fail to give it the best reputation at Buffalo and N. Y.—Holders are confident that the market has not yet reached its maximum, and are by no means anxious to close off at present rates. Oats are affected favorably by the advancing tendency of the Eastern market, and the large demand for local consumption West of Buffalo. In Provisions there is no change, excepting Butter, which is again lower, under large supplies.

We note sales and nominal rates as follows:

WHEAT.—Sale of 121 bu good spring, at the depot, at 75@76c, for milling; 255 bu ordinary spring, for mill, at 62c; 150 do choice mixed at 80c; 50 do do mixed, in sacks, at 85c, and 132 do do at same figure,—all for mills. Also, 2500 bu fair spring, in store, along shore, at 73c; 900 do good winter, in store, along shore, at 85c, and 8000 bu spring, in store, to go to Oswego, on private terms.

CORN.—Sales, on Saturday evening, not heretofore reported, of 5000 bu, from canal, afloat, at 47½c; to-day, 1400 bu, choice, afloat, at 48c; 2700 bu, from river, afloat, at 48c; 4000 do from do, afloat, at same figure; 2800 bu choice, from river, afloat, at 49c, and 32,000 do do do at 49½c, free on board.

OATS.—Sales of 2000 bu, afloat, at 38c; 1500 bu, afloat, at same figure; 2500 do do do, and 10,000 do, to be delivered on board, during the month, at 38c. Also, sales at the depot of 250 bu, in lots, to the local trade, at 40c ₩ bu.

BARLEY.—There is considerable from the river on the market, and sales are made at a reduction. Prime lots in small quantities at 55c ₩ bu.

RYE.—Nominally 60@65c ₩ bu of 60 lbs.

SEEDS.—We hear of no inquiry for Timothy or Clover, and rates are nominally $1,87@4,75 ₩ bu, respectively. For Flax there is an active demand, both for city mill and export, at 90@91 ₩ bu.

MESS PORK.—There is no change in the market. Considerable amounts are closed off, in small lots, to the local trade, railroads and lumber country, at $15@16 ₩ bbl.

CUT MEATS.—Dealers are closing off Hams in small lots, at 9½@9¾c for common country and good city trimmed and sugar cured and 10c for fancy city sugar cured. Shoulders in very little demand. Sales, in a small way, at 7@7½c.

BUTTER.—Sale of 800 lbs good fresh roll, in bbls, at 10c; 200 do at 13, and other small lots at 12@13c. Dealers buy very sparingly.

EGGS.—Sale of 800 dozen, in bbls, at 8c, and small sales at 8c.

POTATOES.—The supply is larger than the demand, and sales are slow at 25@37c in small lots. No large amount could be closed off, even at the lowest of these figures.

CHARTERS.—The schr Suffolk goes to Waukegan, to load with Wheat, at 5½c; the schr Robt Emmett loads here with Corn, at 4½c; the brig Roscius takes Wheat to Oswego at 9c; the propeller Pocahontas takes 3000 bbls flour from G. River at 25c ₩ bbl; the prop. Bucephalus goes to Milwaukee and loads with flour, at 25c; the prop. Granite State takes 5000 bu corn to Ogdensburg on account of owners, 150 bales of hemp to Montreal at $0,50 ₩ ton, and 300 tons pig iron at Milwaukee. The propeller St Joseph takes 1000 live hogs to Buffalo, at $4 ₩ ton.

HO FOR AUSTRALIA.

FOR PORT PHILIP, MELBOURNE, &c. To Sail 25th June, 1853.

The elegant and well-known A No. 1 Clipper ship

TAROLINTA,

CAPT. S. P. GRIFFIN, U. S. N., Commander, late of brig Rescue, of Arctic expedition.

BY application to any of the Agents, will be seen a list of the provisions, ample quantities of which are provided for the use of the passengers. Fifteen cubic feet of luggage allowed to each adult. No berths secured unless one-third of the passage money has been paid as a deposit. This ship is fitted up in a superior manner, for families, with state-rooms, bath-rooms &c; is thoroughly ventilated, carries an experienced Surgeon, and every attendance requisite for the comfort of the passengers, provided free of charge. The Tarolinta is one of the fleetest ships out of this port, having just made a most successful run from China. Her second cabin is 60 feet long, her forward saloon is about 60 feet, her main saloon cabin is 50 feet, light and well ventilated. The proprietor of this favorite and long established line begs to state, that none of his vessels ever have called at intermediate ports.

Those ships have stores for a full compliment of passengers for one year. The rates of passage are such that all may go. Charts of the vessels may be seen, and berths or staterooms secured at the office of the Illinois Agency, where all particulars will be cheerfully furnished. Communications by post promptly answered.

One of our favorite ships will leave New York for Australia every month. Apply on board, or to

ANTONIO PELLETIER, Proprietor, 98 Wall st.,

Or to H. J. SPALDING, Agent for Illinois, Mich. Central Railroad Office, my18 Corner of Lake and Dearborn sts., Chicago.

Also, An eight acre block adjoining Judge Douglas's south of Myrick's. a21 CHARLES CLEAVER, 122 S. Water-st.

BY LETTERS PATENT SECURED IN 1849.—Pulvermacher's Patent Hydro-Electric Voltaic Chains, constructed to be worn under the garments, are the most wonderful discovery in medicine and electricity of the present day. They relieve, without pain or shock, instantaneously, all acute nervous pains, such as head, ear and tooth-ache, rheumatic pains, tic doloreaux, &c., and by their mild but continuous action permanently cure all chronic diseases of the nervous system, such as rheumatism, paralysis, nervous complaints, liver diseases, &c., disappear, as if by a miracle; they have been applied with the greatest success in all those dreadful diseases in children, commonly called convulsions, as also in cases of teething, under difficulties and diarrhoea. They precipitate metals from their solutions, decompose water, deflect the magnetic needle, in short, show all the phenomenon of a powerful voltaic pile. The invention's producing these effects weigh about two ounces, can be folded up in a pocket book, are always ready for instantaneous use, and will last a man his lifetime, guarding himself, family and friends, &c., against that number of diseases the curative properties of which are proved.

Incredible as it may seem to those who have never seen a complete chain [illegible]. The importance of the invention has been acknowledged in America by the Academy of Medicine of New York, and the chains have been applied with great success in the medical colleges, the City, Bellevue, and Ward's Island Hospitals, Brooklyn City Hospital, &c.; in Europe, by the Royal Colleges of Physicians and Surgeons in London; by the Academie Nationale de Medecin at Paris; by the Imperial Faculty at Vienna; by the Royal Faculty at Berlin; and other scientific institutions of the highest order, including the principal hospitals in Europe.

The proprietors are in possession of testimonials to the same effect, from all the above institutions in America and Europe, as well as of the most eminent and distinguished members of the profession in both hemispheres, and invite the personal inspection of the same.

Full and illustrated descriptions, one for personal use and one for scientific men, with copies of testimonials and a number of cures in New York and Europe, may be obtained gratis, and will be forwarded free of charge, as a letter, to any part of the United States in answer to prepaid inquiries, containing three cents postage stamps.

M., connecting with one of their splendid Steamers, (passengers dining on board,) arriving in Buffalo next morning, in time for the early trains East via N. Y. Central, or N. Y. and Erie via Hornellsville Road, and arrive in New York the same evening, making only 36 hours from Chicago to New York. my14

TRUSSES—RUPTURES CURED!!

DR. W. W. HUBBARD, OF ELYRIA, OHIO,

Would say to those afflicted with Ruptures, that his Trusses are superior to any in use, either as a palliative or curative means in the treatment of Hernia. It has received the preference in the Medical Colleges in this and in several other States. Hundreds of Physicians in Ohio testify to the superiority of these Trusses, and to the FACT that he has cured Ruptures in adults of long standing. ALL who are afflicted can be rendered perfectly snug, safe and comfortable. Any one who is not satisfied can return the Truss, after ten days trial, and have the money refunded. All children are warranted to get well.

The trade supplied at manufacturers' prices, and orders promptly attended to by F. SCAMMON & CO., WHOLESALE DRUGGISTS.

LOCK HOSPITAL.

No. 150 Washington Street.

THE ONLY CERTAIN REMEDY FOR THE CURE OF Secret Diseases at 150 Washington street. By the strict system established at the Lock Hospital, 150 Washington st., all patients are secure of absolute privacy. The advantages of this system are too well known to need any comment. All who have any need of advice or attention from Dr. D., may confide in him with a full assurance of secrecy and certain hope of recovery. Some of the most learned and famous men in the country have been under his charge—men of genius, intellect and power—and in no instance has the strictness of privacy been violated.

Invalids must be cautioned against the illiterate and unlearned in science, who do so much injury by quackery and imposition. The Vegetable Medicines of Dr. D. are now sufficiently established, as the only certain remedy for Venereal complaints, and those who are afflicted with such complaints are seriously warned not to tamper with them, by trusting those who practice the abuse of mercury or balsam.

Dr. D. freely invites all troubled with disorders to call upon him. His charges are regulated by the circumstances of the case. No charges will be made where a cure is not effected. Dr. D. is a regularly educated physician, having devoted many years to the exclusive study of these diseases, especially in their various shades, Gonorrhea, Syphillis, Impotency, Strictures, Gleet, Scrofula, diseases of the bones, &c. Nothing is needed but to call upon him, to make everything satisfactory in a moment. Such is the absolute efficacy of the method of his cure, that no question can possibly exist about it, when once an individual becomes acquainted with the wholesome and certain process. It is but for a man to say he is afflicted, and see himself cured.

The greatest point for the consideration of everybody is, to avoid all communication with persons unqualified to give them relief. Serious and dangerous consequences ensue more than the world is aware of, from the treatment of quacks and impostors.

The only certain way is to visit the Lock Hospital, or Dr. D's office, at No. 150 Washington street, and at once place yourself under his care.

Office will be kept open from 9 A. M. until 10 P. M.

All letters (post-paid) will receive prompt attention. Any person wishing a private room, can have it by applying to Dr. D. se30

DR. ATKINSON,

Confidential Physician, 207 Randolph street, corner of Franklin, continues to cure all cases of disease of a Confidential nature, with secrecy and dispatch. His charges are moderate, success certain, and conduct honorable. Private Rooms, and entrance on Franklin street. Worst cases solicited. Letters from city or country, addressed to Dr. A., box 563, P. O., will meet due attention, and medicine can be sent secure to any part. se23-dly

BY TELEGRAPH.

REPORTED EXCLUSIVELY FOR THE CHICAGO DAILY TRIBUNE.

By Speed's Line.

New York, May 23—7 P. M.

The Grand Jury this morning rendered true bills of indictment against Daniel Malony, Captain, and John Christian, Surgeon of the ship, for the murder of two of the crew of that ship on her recent voyage from Liverpool.

Lewis Tappan published in the Post this evening, a letter, in which he states that Tramer, the father of the kidnapped girl, arrived in this city on Saturday evening. Tramer says he was decoyed to Jersey City, where he was waylaid by four ruffians, who cruelly beat him and threatened his life, from whence he fled to Dunkirk.

Washington, May 23.

The foreign appointments have been irrevocably determined to-day, with the exception of France.

The next meeting of the American Association for the advancement of science, has just been appointed to meet at Cleveland on the 20th of July.

Prof. Baird of the Smithsonian Institute has been appointed Secretary of the Executive Committee.

Lockport, May 23.

About 11 o'clock yesterday the lightning struck the steeple of the Congregational church, causing the death of S. Crocker, and injuring 7 others. The lightning struck the steeple, passing down into the gallery, occupied by the singers, which was directly under the steeple. All the persons affected by the shock were members of the choir. They were about concluding the introductory hymn when it occurred. The main stroke of electricity entered the gallery over the head of Mr. Crocker. The first moment after the shock was one of unusual consternation.

Every person in the gallery numbering some 12 or 15, except one or two, were prostrated by the shock but those that escaped injury, aided by persons from below, proceeded to the assistance of the unfortunate. The deceased to all outward appearance, sustained the least injury of any of the sufferers but he was doubtless visited by the heaviest shock. The lightning seems to have passed along the outside of his vest to his left thigh, thence crossed down his leg by ripping open his boot in passing off. The only scar on his person was on his left foot, and is very slight. He spoke but once after the shock. Mr. Clark was standing between him and Mr. Durfee, and not being injured, he proceeded to lift the latter up, when the deceased said "help me I am hurt." Whilst Mr. C. was being taken out he only gasped once or twice and expired. All the sufferers are doing well this morning and their speedy recovery was looked for. The church was not injured to any great extent.

Pain or distress of any kind, whether of gout, rheumatism, headache, toothache, or any other kind of ache, is in all cases caused by impure humors of the blood, which have lodged upon the parts, and which nothing save vegetable purging (purifying) can remove, because by no other means can impurity be driven from the body.

Wright's Indian Vegetable Pills have no superior, if indeed they have an equal, in removing every description of pain; because they carry off, by the stomach and bowels, all morbid and corrupt humors (the cause of disease) in an easy and natural manner. Four or five of Wright's Indian Vegetable Pills, taken on going to bed, will in a short time drive pain or distress of every kind from the system, and restore the body to a state of sound health.

Beware of Counterfeits.

The Genuine is for sale by

STORAGE, FORWARDING AND COMMISSION MERCHANTS,

North Water Street, near G. & C. U. R. R. Depot, CHICAGO, ILLINOIS.

THE UNDERSIGNED, having formed a copartnership, for the purpose of doing a general STORAGE, FORWARDING AND COMMISSION BUSINESS in the city of Chicago, respectfully say that they have just completed a New Ware House, with Steam Elevators, for the purpose of handling grain, and thus they possess superior facilities for this branch of their business. Grain will be taken from Canal or Railroad Cars with great dispatch, and with the usual Ware House operations, being for the most part as well as for storing and shipping rolling freight, with every description of Goods, will be received and forwarded without delay.

Their arrangements at New York, Boston, Buffalo, and other places, will enable them to obtain the best prices for Produce forwarded for sale.

CASH ADVANCES made on property in store, or consigned to either of the following correspondents for sale:

Buckinghams & McCulloh, New York.
Buckinghams & Guthrie, Buffalo.
P. Buckingham & Co., Toledo.
A. G. Farwell & Co., Boston.
Kennedy & Foster, New Orleans.

We hope, therefore, by a strict attention to business, to an honorable and upright course, to merit and receive a share of the increasing business of our growing city.

NEW YORK AND CALIFORNIA Steamship Company.

THROUGH TO SAN FRANCISCO VIA ASPINWALL & PANAMA.

THE STEAMERS COMPOSING THIS LINE ARE as follows:

Plying between Panama and San Francisco.

WINFIELD SCOTT, 2,150 tons, Edward Dunn, Comm'dr.
CORTES, 1,800 " Thos. B. Cropper, "

Plying between New York and Aspinwall.

UNION, 1500 Tons, Richard Adams, Commander.

Plying between New Orleans and Aspinwall.

UNITED STATES, 1,800 tons, Wm. C. Berry, Commander.

The UNION will be dispatched from New York on the 5th of each month, at 3 P. M., direct for Aspinwall. When that day falls on Sunday, the succeeding Monday.

The UNITED STATES from New Orleans, on the 7th of each month, direct for Aspinwall.

The departure from San Francisco will be on the 1st of every month.

These steamers will land their passengers on the Railroad Wharf, at Aspinwall, free of expense, where Cars are ready to receive them, and by which proceed to Gorgona, 23 miles, and from thence the travel is by mules or on foot to Panama, where one of the Company's splendid steamers is always in readiness to receive the passengers, and leave at once for San Francisco, stopping only at Acapulco for fresh supplies.

The transit of the Isthmus is at the passenger's expense, which varies from $10 to $25, dependent upon whether passengers walk or ride from Gorgona, and weight of baggage.

These steamers are all new, were built in New York, with special reference to the trade, are thoroughly ventilated, and commanded by men of long experience. Each steamer carries an experienced Physician.

Rates of fare on the most favorable terms.

For passage, apply only at 84 Broadway, New York. DAVIS, BROOKS & CO., GENERAL COMMERCIAL AGENTS. a15 KING & SMITH, Agents, 55 Clark street Chicago.

WISTAR'S

Balsam of Wild Cherry,

The Great Remedy for Consumption.

And the Best Medicine Known to Man

For Asthma of every stage, Liver Complaints, Bronchitis, Influenza, Coughs, Colds, Bleeding at the Lungs, Shortness of Breath, Pains and Weakness in the Side, Breast, &c., and all other diseases of the Pulmonary Organs.

A very important disease over which this "Balsam" exerts a very powerful influence, is that of a

DISEASED LIVER.

In this complaint it has undoubtedly proved more efficacious than any remedy hitherto employed, and in numerous instances, when patients had endured long and severe suffering from the disease, without receiving the least benefit from various remedies, and when Mercury has been resorted to in vain, the use of this Balsam has restored the Liver to a healthy action; and in many instances effected permanent cures after every known remedy had failed to produce this desired effect.

Besides its astonishing efficacy in the diseases above mentioned, we also find it a very effectual remedy in Asthma, a complaint in which it has been very extensively used, with decided success, even in cases of years' standing.

READ THE FOLLOWING.

We are just in receipt of the following voluntary tribute to the healing powers of Wistar's Balsam of Wild Cherry, from [illegible] Hall, M. D., of Mt. Clemens, Michigan, who is a physician of high standing, and an extensive druggist.

[illegible]

Read and be convinced and further of the remarkable virtues of Wistar's Balsam of Wild Cherry.

GREAT CURE FOR DYSPEPSIA!
DR. HOUGHTON'S THE True Digestive Fluid, or Gastric Juice, prepared from Rennet, or the Fourth Stomach of the Ox, after the directions of Baron Liebig, the great Physiological Chemist, by J. S. HOUGHTON, M. D. Philadelphia, Pa. This is NATURE'S OWN REMEDY for an unhealthy Stomach. No art of man can equal its curative powers. It contains no ALCOHOL, BITTERS, ACIDS, or NAUSEOUS DRUGS. It is extremely agreeable to the taste, and may be taken by the most feeble patients who cannot eat a water cracker without acute distress. Beware of DRUGGED IMITATIONS. Pepsin is NOT A DRUG.
Call on the Agent, and get a Descriptive Circular, gratis, giving a large amount of SCIENTIFIC EVIDENCE, from Liebig's Animal Chemistry; Dr. Combe's Physiology of Digestion; Dr. Pereira on Food and Diet; Dr. John W. Draper, of New York University; Prof. Dunglison's Physiology; Prof. Silliman, of Yale College; Dr. Carpenter's Physiology; &c. together with reports of CURES from all parts of the United States.
Sold by all the Druggists and Dealers in Medicines.—Price, ONE DOLLAR per bottle.
AGENTS.—Dr. S. Sawyer; John Sears, Jr.; Bay & Baldwin; Wholesale and Retail Agents.

THE CHICAGO DAILY TRIBUNE
IS PUBLISHED EVERY MORNING AND EVENING
(Sunday excepted)
BY HENRY FOWLER & CO.
At the Tribune Buildings, No. 21 Clark street, next door South of the Post Office.

TERMS OF SUBSCRIPTION
[illegible]

THE CHICAGO TRI-WEEKLY TRIBUNE is published Tuesday's, Thursday's and Saturday's, in time for the earliest Morning mails. It is of the same size with the large Morning Daily and contains all the reading matter of two days. This is an excellent edition for residents in the country. It will be furnished to mail subscribers at the low price of $4.00 a year in advance.
The CHICAGO WEEKLY TRIBUNE contains all the valuable reading matter of the Daily, comprising the latest Intelligence by Telegraph and the Mails, Market Reports, Literary Reviews, one Choice Story each week, and original Articles, and furnishes more reading than the large class of the New York Weekly Tribune. It is published every Friday at the low price of $2.00 a year in advance. Ten copies to one address, $15.00. TWENTY COPIES TO ONE ADDRESS $25.00.

CHICAGO DAILY TRIBUNE
The Publishers of THE TRIBUNE deem it not inappropriate at this time to make a brief statement of their purpose and plan.
1. The first essential of a good Daily consists in its being a *Newspaper.* New, accurate, reliable, varied and fresh in its life blood. The furnishing its Readers with the latest and best information of each of the manifold changes, incidents and developments, occurring throughout the world as are of special interest to the people of Chicago and the West, will be the leading characteristic of THE TRIBUNE.
2. The candid and thorough discussion of those principles which underlie all facts, is also an essential of a good public journal. In this department THE TRIBUNE will strive to uphold the Truth and the Right. Established on an independent foundation, it will seek to maintain its position, by a fair expression of considerate, yet decided opinions. It will defend whatever it regards as lawful, just and sound, and discountenance all that is false, factitious and fraudulent.
3. For the efficient carrying out of its design, THE TRIBUNE is arranged in eight Departments, to each of which a competent and responsible person is wholly devoted. Of these the Commercial Department is under the charge of T. A. STEWART, Esq., one of the founders of THE TRIBUNE, whose established reputation throughout the West, as a Commercial Editor, saves the necessity of commendation. The Home Department, which is edited by a lady, has been added lately for the sake of making THE TRIBUNE a welcome visitor to the HOME CIRCLE, as well as to the counting room and the office.
4. Arrangements are completed, for Correspondence, from New York, Washington, Philadelphia, Baltimore, Boston, Cincinnati, New Orleans, St. Louis, and the Capitals and larger towns of our own and neighboring States. Letters will be received also, during the year, from at least four regular correspondents in Great Britain, France, Italy and Germany. THE TRIBUNE'S corps of Letter Writers has been made up with care, and includes gentlemen of undoubted ability, accomplished education, and high standing in the country.
5. THE TRIBUNE will support a system of national policy that shall defend our honor abroad and maintain our credit at home. It will advocate a discriminating Protective Tariff. Harbor and River improvements; the donation of the Public Lands to actual settlers; the solution of agitating Foreign Questions by honorable negotiation, unembarrassed by lawless encroachment; direct appeal to the PEOPLE, so far as possible, on public questions and public officers; and, the leaving the South to bear the heavy burdens and heavier responsibilities of its peculiar institution, without irritating interference by the North for its removal, or aid from the national government for its extension.
Its hope of a high destiny for this Land of Freedom is founded on its Faith in Progress as the best Inspirer, in the Past as the best Teacher, in the People as the best Sovereigns, in Whig Principles as the best Policy, in Republicanism as the best System, in Christianity as the best Regenerator, and in THE WEST as the great arena.
